

YOU ARE NO LONGER PART OF LAKE MATHEWS

You are now Woodcrest, do you want to be?

The County of Riverside just gave major influence to the Woodcrest Municipal Advisory Committee on how this area will be developed, including transportation and other issues without taking a vote from the affected residents. Can you see Woodcrest favoring traffic on Cajalco, Washington, Harley John, Mockingbird Canyon Road and El Sobrante, rather than on Van Buren? What about the development along the route here? What about future development? Would Woodcrest residents support the commercial development currently proposed for this area, along Cajalco?

Please fill out the form below, cut on the line and send it to:

View the Board of Supervisors Hearing here:
<http://bosvideo.co.riverside.ca.us/ppportal/agenda/webcast.aspx>
This hearing was on 6/15/2010 scheduled for 9:30am, item number 3.38.

We NEED Volunteers to get the word out. Please tell your neighbors about this. We would like to set up tables on the corners in this area to get more signatures, however we need some more help getting this done. If you wish to help us save your area and to keep Lake Mathews rural, please contact us and let us know when you can help and how.

Opposition to Resolution No. 2010-194

To: The Riverside County Board of Supervisors

I am opposed to resolution no. 2010-194 which includes my residence in the new Woodcrest Municipal Advisory Council. I request that my area be put back into the Greater Lake Mathews Area as Supervisor Buster said he would consider if the community didn't want it. The Woodcrest MAC should look for a community that wants to be in it and not just a few residents.

Please make this opposition part of the public record.

Woodcrest is and always will be known by the boundaries set by the Woodcrest COI and the community should stay within those boundaries. The Greater Lake Mathews Area is known by its COI boundaries and should stay as such. The two communities have a much different demographic and the Greater Lake Mathews Area is far more rural and we want to stay rural.

Thank you,
Greater Lake Mathews Resident
